

Compact Type DPSS Laser

Diode Pumped Solid-State Green Laser "Petit Vert"
NEO- SG Type

Power supply for 10-50mW Head

Head size: 45 (W) x 34 (H) x 80 (D)

Power supply for 100-200mW Heads

Summary

Compact design DPSS laser at 532nm
 Power: 10mW, 30mW, 50mW, 100mW and 200mW
 Two types of power supply available: Standard (100V), and Constant power Level type
 Ordering Information: NEO-□□□-SG, insert the desired power level
 For example: NEO-020-SG is for a 20 mW version

Application

- Light source for optical inspection or measurement
- Pumping laser for sample, dyestuff or luminous powder etc.
- Light source for visualization

Specifications

Wavelength	532nm
Output Power	10, 30, 50, 100, 200mW
Power Stability	Drift
	High frequency noise
Polarization	Linear
JIS Safety Classification (Class)	Class 2B
